

THE **ANGLO NORDIC** RANGE OF COMPONENTS FOR PRESSURE WASHERS

TAISAN PUMPS

Electric oil solenoid pumps available for different flow rates in both 240V and 110Volt

WATER PUMP MOTORS

Simel motors are available in 2.2Kw 4Kw & 5.5Kw sizes.

With flying lead or with terminal block

HIGH PRESSURE OIL SOLENOID VALVES

Both Brahma and Delta valves, and also just the coils, are available in 24V, 110V and 240V versions. A solenoid test magnet is also available.

FLEXIBLE OIL LINES

A wide range of braided, rubber and thermoplastic oil lines are readily available from stock. Some models carry a 3 year warranty!

OIL FILTERS

Types are available with plastic bowl, aluminium bowl, paper or cleanable mesh elements. Types also available with water separator

THERMOSTATS

T & G are a leading supplier of control, limit and immersion thermostats. Units are available with capillary length up to 2.5m and temperatures up to 300°C

OIL FIRE VALVES

Handwheel, Lever and Thermostatic Fire Valves are available with capillary lengths up to 25 metres. Available at 70°C and 95°C temperature rating

MONARCH NOZZLES

Stainless steel nozzles are available in solid (R), semi solid (AR or PLP) and hollow (NS or PL) spray patterns and in 30°, 45°, 60° and 80°.

OIL PUMPS

Delta pumps are available both with and without solenoid valves and in 240, 110 and 24 volt.

A VU solenoid pump that is **reversible** is also available

ELECTRONIC/CONVENTIONAL IGNITION TRANSFORMERS

Brahma, Cofi & Prufrex transformers are available from stock. Many models and configurations are available Primary voltages of 110V, 240V and 380V and Secondary voltages from 2Kv up to 24Kv

IGNITION LEADS & ELECTRODES

Leads and electrodes are available to suit Karcher pressure washers and other types can be manufactured on request.

H T LEAD

Available by the metre. Electrical rating 30,000volts. Temp rating -30°C to +70°C. PVC sheath 16/0.3 strands. Cable diameter 7mm OD.

FAN WHEELS

Many sizes available from stock. Bore sizes up to 28mm left hand or right hand rotation

ELECTRIC MOTORS

Simel motors are available in 110V, 240V and 440V and with or without the 'pump end drive'. Drive couplings for motor to pump connection are available separately
